

Report on “Plastic Nirmulan”

World environment day is very important day in our life. It is the day when we get aware of issues related to our environment and pledge to keep it safe for our better future. It is a day especially celebrated to know and solve all the environmental issues. It is also known as the Environment Day, Eco Day or WED. It is a great annual event focusing on the issues of environment and trying to solve them completely. It is being celebrated for years worldwide with lots of creative activities and enthusiasm to bring positive changes in the environment. It aims to protect the natural environment forever on the earth for the healthy possibility of life.

Plastic bags are ruining our beautiful environment and have become a threat to our health. It is high time we must stop the use of plastic bags. We must think about the bigger scenario rather than convenience of a few seconds. It is not that difficult to keep a cloth bag with us as we head to the market. This will go a long way in keeping our environment clean.

The harmful impact of using plastic bags has been stressed upon time and again. We are all aware about the harm they are causing to our environment. We must stop their use to make our environment safer to live.

ASM Group of Institutes always adopts the latest practises which are useful for the society and hence, all the faculties in the Institute took a pledge to say “No TO PLASTIC BAGS” and to protect environment on 5th June 2018.

Notice Board Displaying No Plastic Save Environment.
