

IT Literacy for Kids

Considering the importance placed on digital literacy in many career roles, the new curriculum seems a step in the right direction – but does more still need to be done. So we at ASM's Institute had organised the classes to make computer ,familiar to the children on 14th November 2018. They are now quite aware of working and searching of things through computer.

Computer education in schools plays important role in students career development. Computer with the internet is the most powerful device that students can use to learn new skills and more advanced version of current lessons. Schools are around the globe teaching student's basics of computers and internet.

The uses of computers and internet are growing day by day at high speed. In almost all business, companies, schools using computers for various official operations. New tech tools are coming that helping students to learn better. Computers help students to draw the creativity on the computer such as by using windows paint program. If students are taking Hindi Classes or poem writing then they can do it by typing in Hindi on computers. If students are taking Mathematical classes they can use Microsoft Excel application to solve and understand questions.

Children's Learning Computer.
