

## Policy for Assessment and Offering Special Program for Advanced and Slow Learners

### A) Conduction of Test

- At ASM's, IPS, assessment of every student begins with the induction program and continues for two years of MBA program.
- In accordance with AICTE guidelines, an induction program is conducted at the beginning of the academic year to identify advanced learners and slow learners.
- Throughout the 2-year MBA program, course teachers utilize a combination of formative assessment methods to evaluate students' performance continuously.

### B) Assessment

- Panel of experts conduct aptitude test, group discussion, personal interview during induction process.
- Faculty experts analyze the data gathered during the profiling process like past achievements, educational performance, hobbies, interests, strengths, weaknesses, students' communication skills, leadership qualities, awareness, and goals for the next five years.
- Faculty members conduct Continuous Comprehensive Evaluation programs to assess progress of students during MBA program.

### c) Special Programmes:

#### ➤ For Slow Learners:

- **Add-On Courses:** Weaker students are recommended Add-On Courses to address their weaknesses and acquire additional skills for career advancement.
- **Remedial Classes:** Remedial classes are conducted for slow learners to provide additional support and assistance.

#### ➤ For Advanced Learners:

- **Certification Programs:** Advanced learners are offered certification programs to enhance their skills further.
